Dear Andy

Thank you so much for the work the ATC did to help to make this year's Festival successful – we all worked under extremely trying conditions and the work that you did helped enormously. In true British style you kept smiling and working through the mud and, at times, torrential rain and gale force winds.

It is too early to say how much money we managed to raise for the Wendover Arm Trust's canal restoration project – due to the weather it is bound to be considerably less than last year but we should have a profit again.

I enclose an evaluation form which you might like to return. I did try to give some out at the Festival but the need to shelter from the rain from time to time defeated me. We will not hold our 'wrap-up' meeting until September and I would like to be able to present a fairly comprehensive report which will be partly based on your feedback – so it is valuable.

Yours sincerely

Judith Watsham
Entertainments Officer
Wendover Arm Trust
